

Software: Job Information Management

The SeeknFind Job Information Management (J.I.M) program provides a robust tool for mechanic's or other technicians to record the time spent on service and maintenance jobs. Each job card is assigned a DAELIBS electronic signature. Each mechanic or technician has their own DAELIBS data Logger. By signing on for each job the SeeknFind software is able to report the time spent on each account. This removes the need for paper time sheets.

Job Number Reports

From Summary tables showing how much time was spent in an area where like jobs are grouped for a given time period, to Raw Data showing how much time an individual spent on a given Job on a given day

Job Number: 0406210002	
Employee	Duration
BROWN Alex	11:24:59
JOHNS Joe	11:56:20
SMITH Peter	00:57:41
Total	24:19:00

Employee Reports

Create daily or weekly time sheets for employees showing how long they have spent at work and how much time they have spent on each job.

Employee: JOHNS Joe
